## PROFESSIONAL SUMMARY

---

Business Analytics Professional with a BBA in Finance and experience in business operations, client management, and data-driven decision-making. Currently working as an Operations Junior Associate at Deloitte USI, supporting RFPs, requirement analysis, solutioning, process improvement, and global client operations, with exposure to P2P and O2C processes. Experienced in Power BI, Excel analytics, and KPI reporting, with a track record of managing 100+ client portfolios, contributing to 12% YoY sales growth, executing high-value government contracts, and improving customer satisfaction by 28%. Currently seeking opportunities to gain deeper exposure to the Data Analytics domain and transition into a relevant Data Analyst / Business Analyst role, where I can apply my analytical, business, and problem-solving skills to generate actionable insights and support data-driven decisions.

## CORE SKILLS

---

- **Data Analytics:** Data analysis, exploratory data analysis (EDA), statistical analysis, forecasting, segmentation, trend analysis
- **Business Analytics:** KPI analysis, performance analysis, financial analytics, business reporting, data-driven decision-making, SQL foundations & fundamentals
- **Data Visualization & BI:** Power BI, dashboard development, KPI dashboards, data visualization, Google Looker Studio, IBM Cognos Analytics
- **Excel & Data Processing:** Advanced Excel, Pivot Tables, VLOOKUP/XLOOKUP, data cleaning, data validation, Macros
- **Reporting & Stakeholder Management:** Management reporting, client-ready presentations, requirement gathering, stakeholder communication
- **Process & Operations:** Process improvement, SOP development, workflow documentation, P2P, O2C, RFP support, solutioning
- **AI & Automation:** Generative AI tools, prompt engineering, Excel automation

## PRACTICAL EXPERIENCE

---

### Operations Junior Associate

September 2026 – Present

*Deloitte USI - Hyderabad*

- Support day-to-day business operations by understanding requirements, organizing information, and helping teams deliver solutions for global clients.
- Work on RFPs and proposal activities, including requirement analysis, effort estimation, pricing support, and process documentation.
- Gain hands-on exposure to P2P and O2C processes while contributing to process improvement, digital transformation, and collaboration with cross-functional teams.

### Business Operations Analyst

May 2025 – May 2026

*Venkateswara Traders - Hyderabad*

- Measured and analysed business performance data across 100+ client accounts, tracking KPIs and turnaround-time metrics to support management decision-making and leadership review meetings.
- Validated data integrity across CRM and reporting systems, then built and maintained recurring performance dashboards and reports in Advanced Excel and Power BI with consistent formatting and benchmarking standards.
- Coordinated with cross-functional stakeholders to gather and refine reporting data, and authored SOPs and workflow documentation to standardize processes and support onboarding of new team members.

## KEY PROJECTS

---

### Sales Performance Dashboard - Power BI & Advanced Excel

- Designed an interactive dashboard tracking KPIs, revenue trends, and regional results, automating data cleaning to improve reporting turnaround.
- Conducted trend analysis and forecasting, improving reporting accuracy by 20% and documenting methodology for stakeholder review.

### Customer Churn Prediction - Excel & Statistical Analysis

- Performed exploratory data analysis on large data sets to identify behavioural patterns, structuring findings into clear, actionable reports.
- Developed a segmentation model using statistical techniques, contributing to a 15% improvement in retention through data-driven recommendations.

### Connect & Pool - Ride-Pooling Concept & Prototype ([Redirect](#))

- Designed a location-first ride-pooling web app concept for India, letting travelers at airports, stations, and malls view, agree with, and chat with a co-traveler before booking, instead of relying on algorithmic mid-route pairing.

- Built and published an interactive front-end prototype end-to-end, translating the concept from problem framing to a functional, shareable demo.

## EDUCATION

---

### Bachelor of Business Administration (BBA) – Finance

June 2024

*Little Flower Degree College, Hyderabad — CGPA: 8.46 / 10.0*
